EDUCATION

Computer Science and Information Technology (B.sc CSIT)   2022 - 2026
lumbini ICT Campus, gaidakot
I am currently studying CSIT which is 4 year program of TU with 8 semesters.

SKILLS

HTML, CSS, JS

C/C++

Data Structure & Algorithm

SFML/OpenGL

Blender/3d modeling

Python

SQL

Photoshop

Operating System

LANGUAGES

Nepali

English

Hindi

PROFILE

I am passionate Computer Science student who have interest in Game development and AI. I have been obsessed with C++ for over a year now with good experience. I believe in learning, teaching, leading and team collaboration.

PROJECT

- College Mangement System
- Flappy Bird Clone
- Space Fighter plane game (2d)
- Portfolio Website
- Double Pendulum simulation
- Many other C++ small projects

HOBBY

I often goes to hacktoberfest, hackathon and other engaging IT activities if i got chance. I also take part in contest in coding round like Codeforces. And i do physics simulation and simple coding experiment for fun.

COURSES

Python in 100 days
I have taken udemy python in 100 days course from Angela from where i learned about python, tkinter, basic django.

Other so many course from Youtube
I consistently learn other language, framework from Youtube.
